

New Headquarters for AVL UK

You are invited to a public information event to have your say about how the proposals for a new headquarters building could look.

We would like you to attend a drop-in session to see outline plans and proposals, give your views on the building's design and ask questions about the design and construction of the development.

The drop-in event will be held on **Monday 21st March 2016** and you are welcome to come along at any time between:

5.00pm and **8.00pm** at the **Worcester Norton Cricket Club**, Norton Barracks/ Brockhill Lane, Worcester WR5 2PP.

Proposals are for AVL UK, 'the world's largest independent company for the development of powertrain systems with internal combustion engines', to be located in a new, purpose-built headquarters building, potentially the first to be designed and built on the South Worcestershire Business Park on Norton Road.

If you would like to find out more, please contact:

Matt Tebbatt on **01905 362300** or email **reception@oneltd.com**
